

```
#include <stdio.h>
#include <stdlib.h>
#include <conio.h>
#define CTRLZ 26

int main()
{
    int c;
    printf("enter characters: ");
    c = getch();
    while(c != CTRLZ)
    {
        putchar(c);
        putchar('\n');
        printf("enter characters: ");
        c = getch();
    }
    putchar('\n');
    system("pause");
    return 0;
}
```
